Esteemed Colleagues,

The Novobiotek Dental Implant Institute invites you to participate in our 2017-2018 continuing education program. Our course, Dental Implant Placement & Restoration: Simple Approaches to Achieving Minimally Invasive Placements and Predictable Restorations, will be offered at the beautiful island of Puerto Rico. This course will provide you with interactive lectures and discussions, live surgery, hands-on workshops, lectures outlines, personalized mentoring with the instructor, and special discounts for the attendees. The course is divided into 4 day sessions for a total of (32 CE) credits. The 4th session is a small group, hands-on live surgery that requires a separate registration to obtain your space. We will also offer an optional advanced seminar per quorum for a total of (8 CE) credits. For further information, please visit our webpage: www.novobiotek.com.

This prestigious institute offers diverse seminars in the most advanced dental techniques. Our seminars offer simple approaches to traditionally complex dental procedures. The goal of our seminars is that the dental practitioners will increase their confident level to perform and incorporate implant procedures in their practices. Our sessions will provide our attendees with the knowledge and skills needed to succeed in the field of Implantology.

Our courses are directed by a unique combination of successful and experienced dental instructors. All courses will be reinforced by our forum web-page (www.idoctormd.com), As well as by videos, tutorials, tips and recommended products, in order to improve your practice.

We invite you to access our web-page, www.novobiotek.com, for more information, dates and to register online. Attendance is limited in order to offer you a more personalized attention, Please plan accordingly.

Cordially,
Dr. Ebless V. Baez Alers, DMD
CEO & Founder Novobiotek
About the Speaker

Dr. Ebless V. Báez, CEO and founder of NOVOBIOTEK, is a graduate of the Dental School of Medicine of Puerto Rico. The first Puerto Rican to receive a 501k clearance by the FDA on the first dental implant system design and manufacture in PR and the Inventor of the TOTALIS® Dental Implant System and its neo-implant approach both surgically and prosthetically, with its patented innovative implant threads, abutment and impression easy protocol. He has been a certified instructor for many dental Implant companies and NOVOBIOTEK.

Dr. Báez is also a graduate of the prestigious Rosenthal Aesthetic Institute, the Advanced Implant Seminar Institute of Miami, Florida, and the Institute for Comprehensive Implant Therapy, as well as a member of the renowned Academy of Cosmetic Dentistry. He also created the BAEZ PROPORTIONAL RULER®, for precise esthetic design; the STX application®, a business management software and EMR on the cloud for dentists; the BBX implants® line; and the Aqua-lift system®, an innovative device to simplify sinus grafting, among other medical devices in the dental industry.

Founder of the Dental Secrets Seminar, and “idoctormd.com”, a dental portal created in 2002 to help promote dental education for doctors through seminars, oral implantology articles, videos, among other resources. He is currently working on a book titled Bone Behavior for Dentists, directs the NOVOBIOTEK Dental Implant Institute, and maintains his private dental practices in New York and Puerto Rico.
Course Objectives

Session I: Aesthetics Principles & Minimally Invasive Implant Placement

Teach the basic rules of the aesthetic principles, proportion and proper placement of space, in relation to the implant placement, with emphasis on diagnosis, and medical conditions. Do a sequential treatment plan based on the diagnostic evaluation of the patient.

Step-by-step sequence demonstration through a clinical surgical video from diagnosis to implant placement and final restoration of a patient.

Show and explain in detail different techniques for taking the impression, what to avoid and new protocols to be predictable.

Clinical cases will be shown and discussed from the initial diagnosis to the final phase of restoration. New trends related to the implant systems on the market, cost including and a new implant system developed by Novobiotek will be discussed.

Learn to use, step by step, the new application for handling office tasks. Learn to create their own office areas to track or monitor from anywhere. Create users’ access and soon an EMR free.

Session II: Hands On, Over the Shoulder Live Implant Surgery

Learn the history of implants, how they have evolved to the current designs and surface treatments, and how design affects the biomechanical diagnosis
and treatment plan decisions that follow.

Provide complete and detailed instructions on the placement of dental implants and the restorative phase. Cover all aspects of how to make printing and final cementation, as well as how to increase the chances of success and clinical predictability of implant procedures.

Medical implants will be placed in pig jaws in order to practice the protocol and lessons learned, following step-by-step sequence protocol. The doctor will expose different implant diameters, lengths, designs and uses as immediate or delayed load and mini implants.

Doctors will have the opportunity to observe a live surgery on patient “over the shoulder” in which they can see and clarify all the lessons learned while carrying out the surgery. Doctors will learn how to handle a real implant surgery.

Learn how to use a new task tracker application to monitor all office areas in a simple way.

**Session III: Bone grafting & Hands On Training**

Provide comprehensive theoretical knowledge and practical ways to develop minimally invasive procedures.

Learn about new biomimetic systems, techniques, and materials to help the regeneration of soft and hard tissues, and implants to achieve predictable results.
Understand the indications, guidelines and protocols to achieve successful bone graft. Teach doctors bone biomechanical behavior, and how the ultra structure of bone affects and interacts with other products and regenerative implant.

Recognize all physiological stages of healing and tissue behavior before and after implant placement and tissue regeneration.

Describe the anatomy, biology, and ultra structure of bone and wound healing of bone grafting procedure.

Recognize types of bone graft products, available membranes, components and applications.

Recognize all growth factors and blood components for a healing process of normal tissue.

Learn how to manage and prevent complications associated with bone grafting procedures.

Session IV: Live Patient Surgery Hands On Training (separate registration is required)

Discuss new guidelines for medical systemic considerations, as well as, indications and contraindications for treatment of implant surgery and legal aspects.

Achieve the proper planning of case from making diagnoses records, pre - event planning and treatment.
Recognize the important anatomical areas, what areas to avoid, interocclusal management of complications and guides.

Identify strongest pillars of areas, guidelines for determining areas and limitations approach.

Learn new techniques to keep it simple, be more predictable and avoid failures. A new technique developed by Dr. Baez that simplifies the process will be presented.

Apply the techniques learned to perform the surgery on the patient.
**Schedule / Itinerary**

**SESSION 1 - FRIDAY**
Aesthetics Principles & Simple Implant Placement.

Four Points by Sheraton Caguas Real Hotel & Casino is just a short drive from downtown San Juan and is perfectly located on the skirts of Puerto Rico's central mountain range. You'll find everything you're looking for at our Caguas hotel, whether it's breathtaking mountain views or our tropical outdoor pool. We offer easy access to all the best things to do in Caguas and many major corporations. We're the perfect Caguas hotel.

CAGUAS HOTEL FEATURES

Traveling can be complicated. Staying at a hotel shouldn't be. At our Caguas hotel, we'll make your stay smooth and easy with our casual ambiance and comfort. Settle in after a long day of fun, business, or both, and enjoy free high speed Internet access, bottled water and the comfy Four Points by Sheraton Four Comfort Bed™ in all of our 126 smoke-free guest rooms. Don't forget to request a guest room with a mountain view or have a little extra room in one of our suites.

To make a reservation call: 787-653-1111 or Visit: www.fourpointscaguas.com
Hilton Ponce Golf & Casino Resort

Enjoy the Beauty & Flavor of Puerto Rico Retreat to the Hilton Ponce Golf & Casino Resort for the perfect Puerto Rican vacation. Come to our oceanfront sanctuary on the southern shore of Puerto Rico for amenities, enthralling entertainment, decadent cuisine, and a plethora of activities to engage your senses.

The Hilton Ponce Golf and Casino Resort sits where the stunning Caribbean meets a pristine shore, on a secluded paradise where you can fill your days with sunny adventures and your evenings with fine dining and enthralling entertainment. Start your day off with an exhilarating workout in the fitness center or challenge yourself to a round of golf on mountain or ocean view course. Gather the kids and play all day. Choose from miniature golf, table tennis, waterslide, wading pool, spray park, volleyball, or our outdoor playground - they won't want the day to end! Linger by the pool or head to the beach and disappear on a chaise. Breakfast, lunch, and dinner, you'll be treated to a taste of the authentic flavors of Puerto Rico and numerous traditional favorites in any of our varied restaurants and bars. Venture to our city of Ponce, where architecture, history, and culture abound – and where you could spend an afternoon just enjoying the sites. For families, couples, business, and leisure travelers alike, the Hilton Ponce Golf and Casino Resort is the ideal Puerto Rican destination.

To make a reservation call: 787-259-7676 or Visit: www.hiltonponceresort.com
Puerto Rico is a Caribbean island and unincorporated U.S. territory with a landscape of green mountains, waterfalls and the tropical rainforest of El Yunque National Forest. It's known for its white-sand beaches and coral reefs, popular for snorkeling, diving, surfing and sailing. In San Juan, the capital and largest city, the Isla Verde area is known for its beach bars, nightclubs and casinos.

Ponce

Puerto Rico’s second city is home to beautiful plazas, an eclectic mix of architectural styles, and one of the Caribbean's best museums of art. Here is a list of things to see and do when you visit.
